

Guide for using the eHealth system

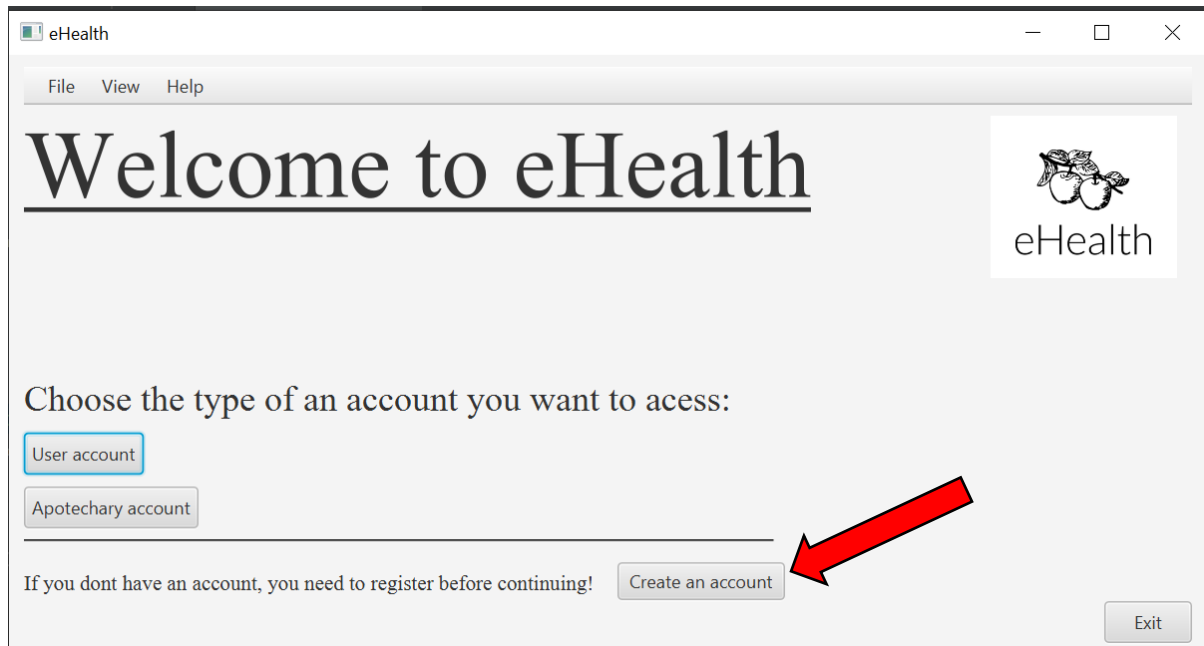

In order to help our users get accustomed with using the eHealth system, we developed this guidebook for all the most common problems that might occur. Those problems are:

- How to create an apothecary account with eHealth?
- How to create a user account with eHealth?
- How to login to your account?
- How to change the language of the application?
- How to use the apothecary account?
- How to use the user account?

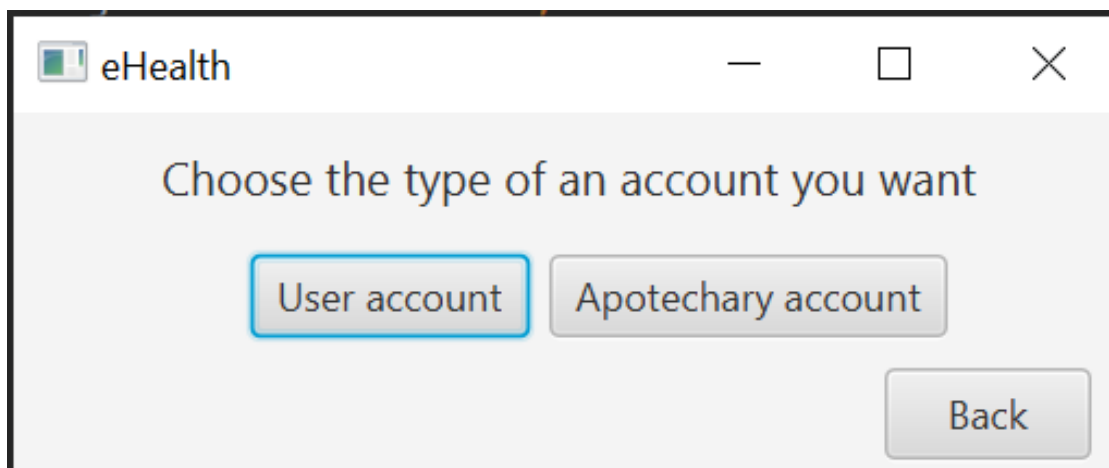

So, lets start explaining!

Creating an account with eHealth

Once the eHealth application has been started you are going to be welcomed by the following screen:

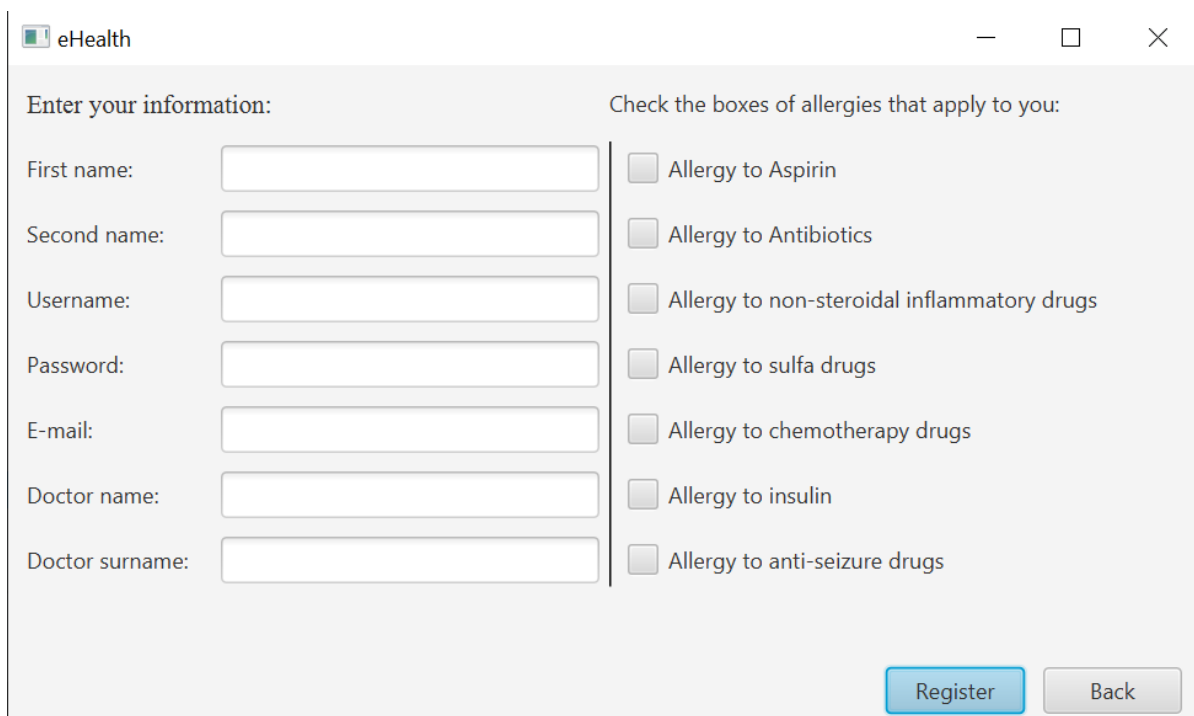

If you wish to create an account, you need to click on the “Create an account” button pointed at by the red arrow. After that you will be redirected to the following menu, where you will choose the type of account you want to make!

The screenshot shows a window titled "eHealth" with standard window controls (minimize, maximize, close). The main heading is "Choose the type of an account you want". Below this heading are two buttons: "User account" and "Apothecary account". The "User account" button is highlighted with a blue border. At the bottom right of the window is a "Back" button.

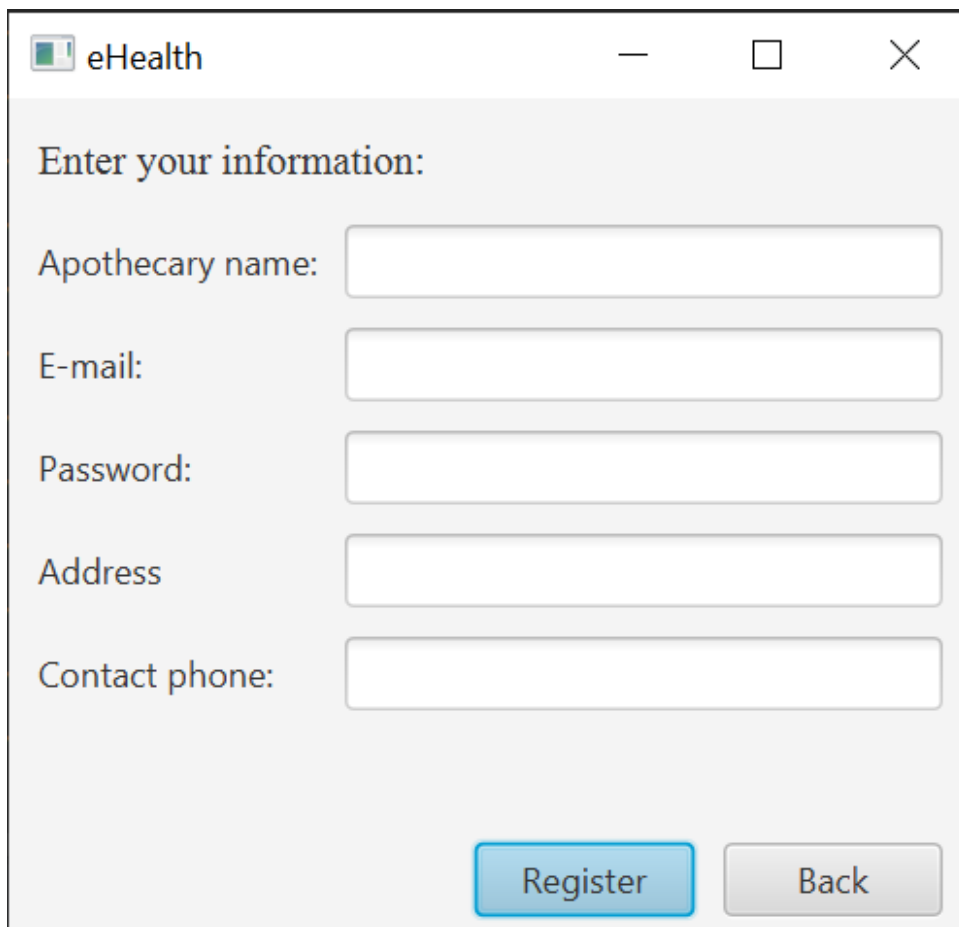

If you wish to create a user account, you need to click the button “User account”. If you wish to create an apothecary account, you need to click the button “Apothecary account”. Whatever option you choose you will be forwarded to a form menu, where you will be required to enter your data!

Form menu for creating the user account:

The screenshot shows a window titled "eHealth" with standard window controls. The form is divided into two main sections. The left section, titled "Enter your information:", contains seven text input fields labeled "First name:", "Second name:", "Username:", "Password:", "E-mail:", "Doctor name:", and "Doctor surname:". The right section, titled "Check the boxes of allergies that apply to you:", contains six checkboxes with corresponding labels: "Allergy to Aspirin", "Allergy to Antibiotics", "Allergy to non-steroidal inflammatory drugs", "Allergy to sulfa drugs", "Allergy to chemotherapy drugs", and "Allergy to insulin". At the bottom right of the form are two buttons: "Register" and "Back".

Form menu for creating the apothecary account:

The image shows a web browser window titled "eHealth". Inside the window, there is a form titled "Enter your information:". The form contains five input fields, each with a label to its left: "Apothecary name:", "E-mail:", "Password:", "Address", and "Contact phone:". Below these fields are two buttons: a blue "Register" button and a grey "Back" button.

Enter your information:

Apothecary name:

E-mail:

Password:

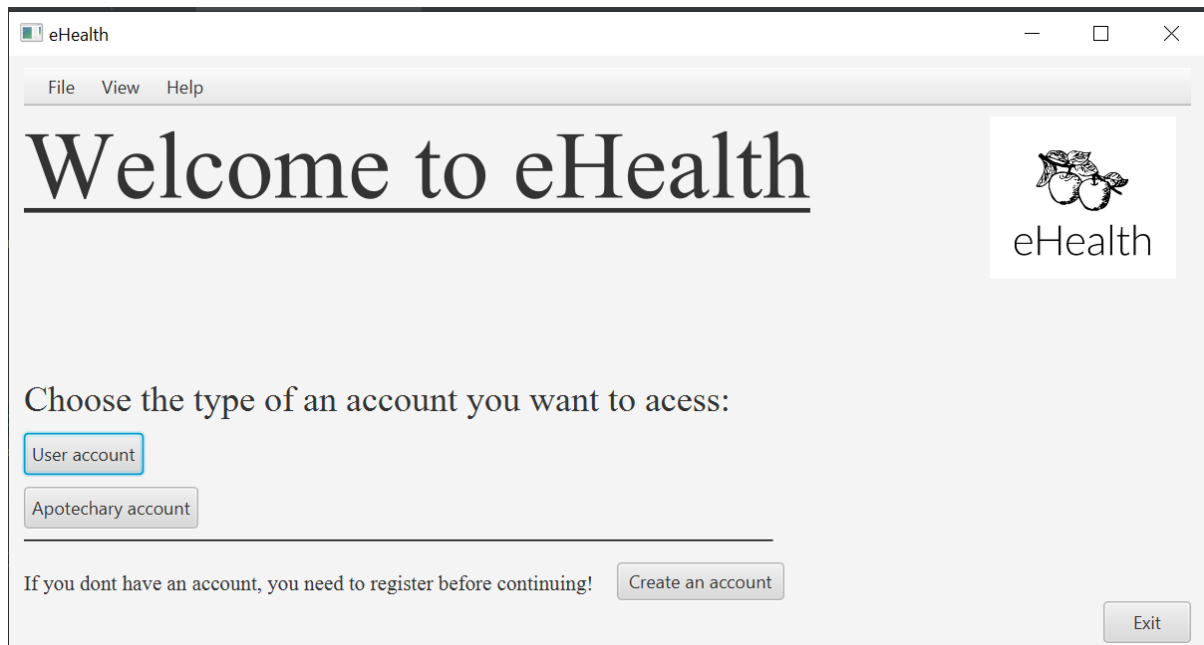

Address

Contact phone:

After entering the necessary data click the button "Register" to complete the process.

Logging in to you account

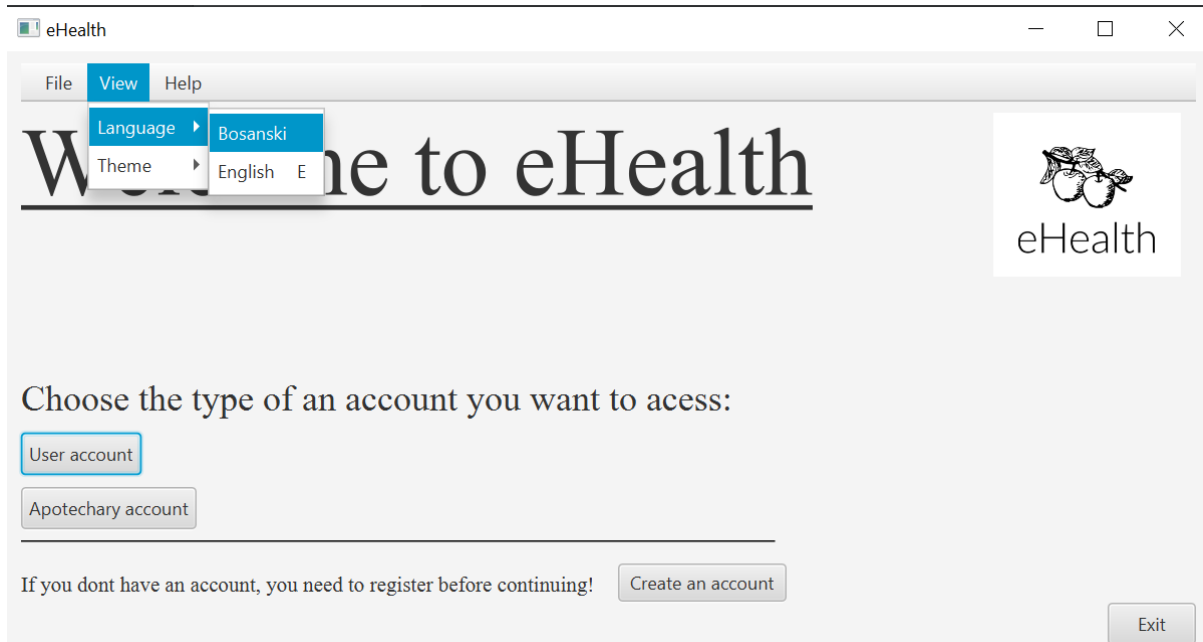

After you have successfully created an account, you can always access it. All you need to do is log in.

To achieve that, while in Start Menu, click the button "User account" if you want to log in to a existing user account. Otherwise, if you want to log in to an apothecary account, choose the option Apothecary account. Both options will open a menu that will require you to enter the necessary login data. After you type in the dana, all you need to do is press the "Login" button and the process is complete.

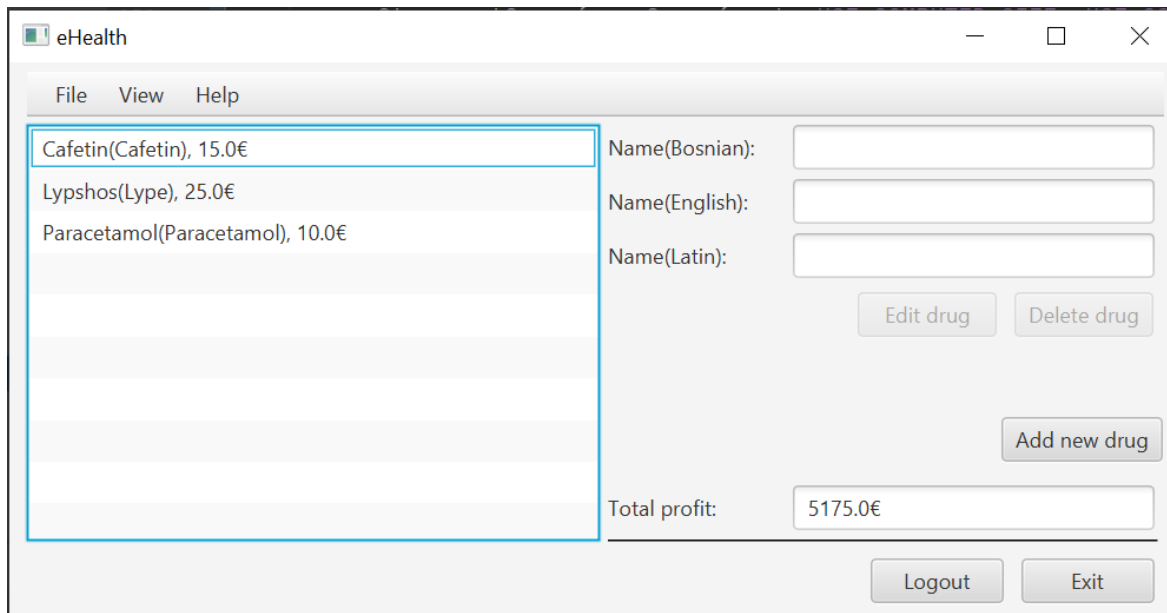

How to change the language of the application

Option to change the preferred language of the application can be accessed while you are in the start menu, or after logging in to your account. You can access it by clicking on the “View” option of the menu bar. Afterwards, choose the option “Language” and choose the language you prefer.

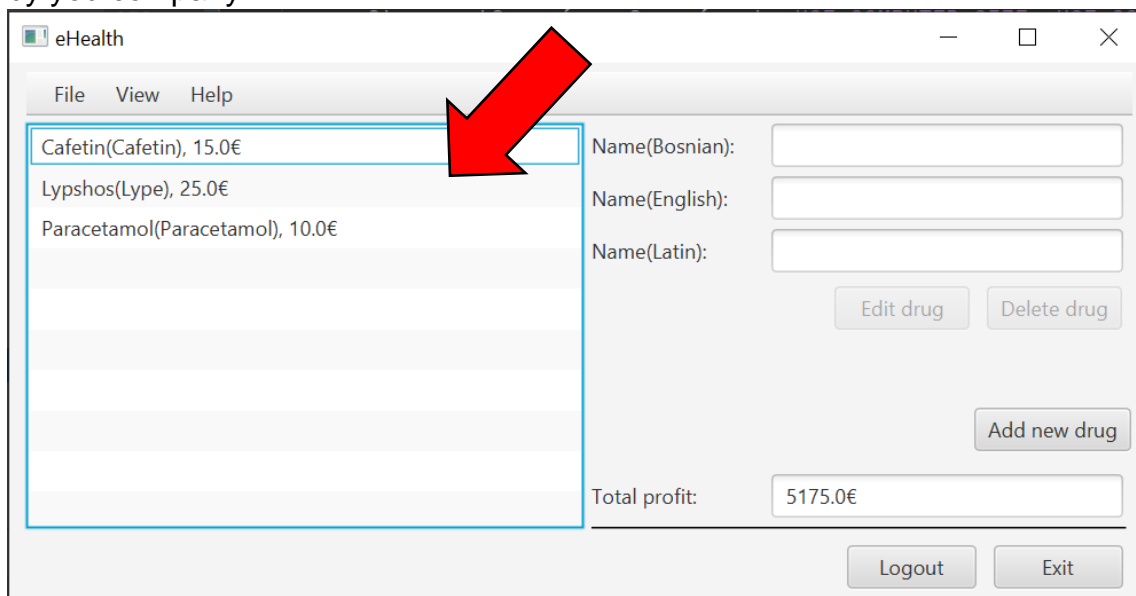

Using the apothecary account

Once you log in to you apothecary account, you will be greeted by the following application window:

The screenshot shows the eHealth application window. On the left, there is a list of drugs with their names and prices: Cafetin(Cafetin), 15.0€; Lypshos(Lype), 25.0€; and Paracetamol(Paracetamol), 10.0€. The list is highlighted with a blue border. On the right, there are input fields for Name(Bosnian), Name(English), and Name(Latin). Below these fields are buttons for 'Edit drug' and 'Delete drug'. At the bottom right, there is a button for 'Add new drug'. At the bottom left, there is a 'Total profit:' label and a text box showing '5175.0€'. At the very bottom, there are 'Logout' and 'Exit' buttons.

On the left, you will find the list showing all the drugs that are currently listed on sale by you company.

This screenshot is identical to the one above, but with a large red arrow pointing to the list of drugs on the left side of the window.

By selecting a drug on the list, it's names in all languages are going to be displayed on the right. You will also be able to use the options "Edit drug" and "Delete drug". The option "Edit drug" will open a menu in which you edit the data about the drug. Other option will delete the drug from the selling list.

The screenshot shows a window titled "eHealth" with a menu bar containing "File", "View", and "Help". On the left is a list of drugs with their prices: "Cafetin(Cafetin), 15.0€", "Lypshos(Lype), 25.0€", and "Paracetamol(Paracetamol), 10.0€". The third item is selected. To the right of the list, the details for the selected drug are shown: "Name(Bosnian): Paracetamol", "Name(English): Paracetamol", and "Name(Latin): Paracetamol". Below these are two buttons: "Edit drug" and "Delete drug". At the bottom right of the details section is a button labeled "Add new drug". At the very bottom of the window, there is a "Total profit:" label followed by a text box containing "5175.0€". Below this are two more buttons: "Logout" and "Exit".

Drug Name	Price
Cafetin(Cafetin)	15.0€
Lypshos(Lype)	25.0€
Paracetamol(Paracetamol)	10.0€

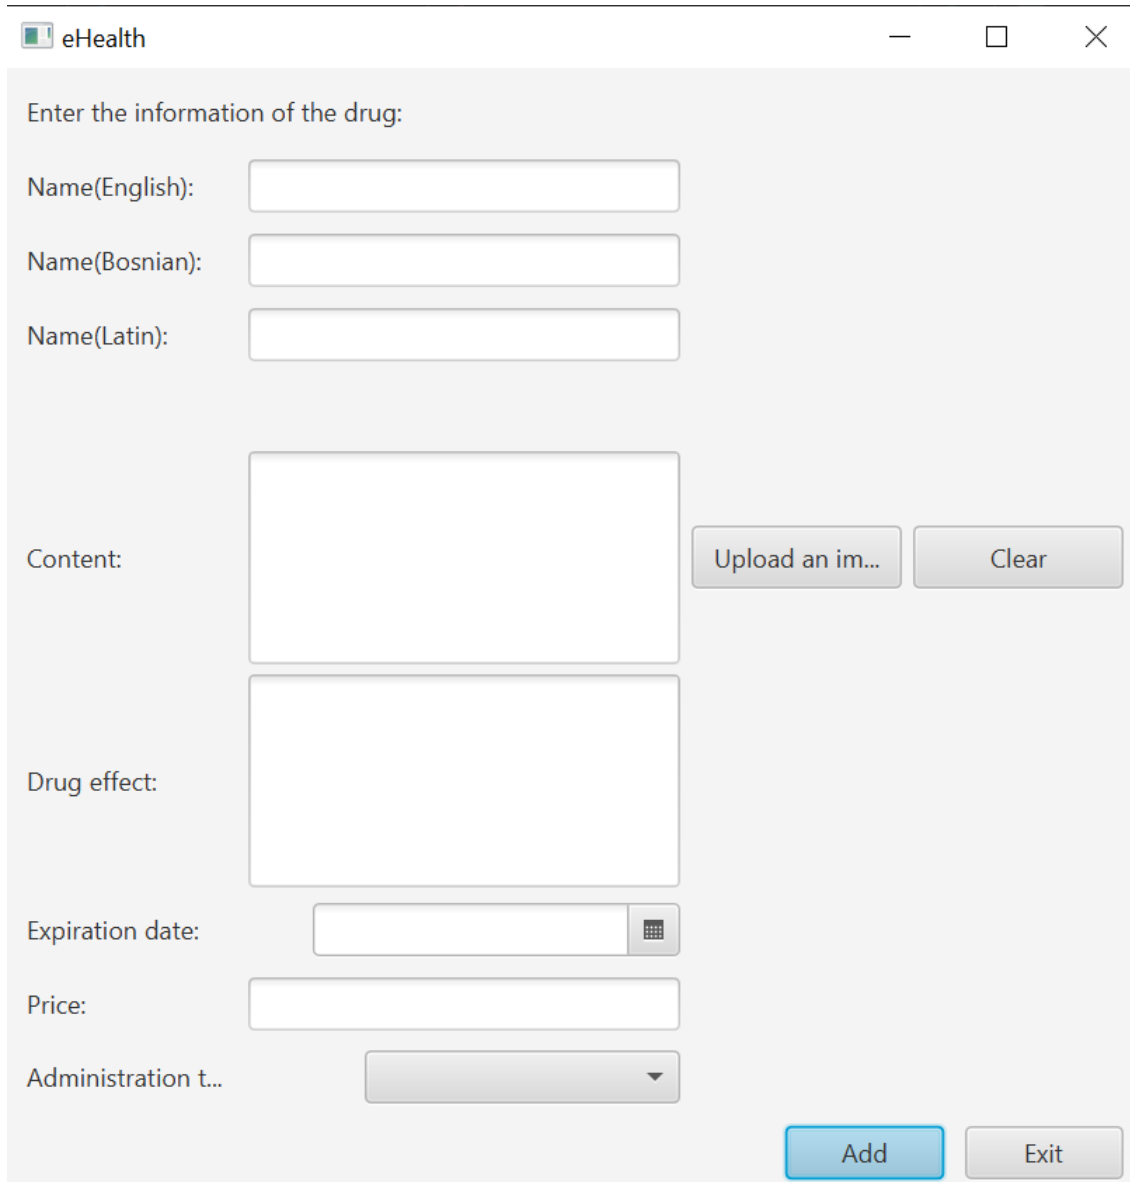

Details for Paracetamol(Paracetamol):

- Name(Bosnian): Paracetamol
- Name(English): Paracetamol
- Name(Latin): Paracetamol

Total profit: 5175.0€

In the bottom of the window, you are shown the total profit of you apothecary as well as the options to exit the application and to logout from it.

If you wish to add a new drug, you need to click the button “Add new drug”, which will open the following window:

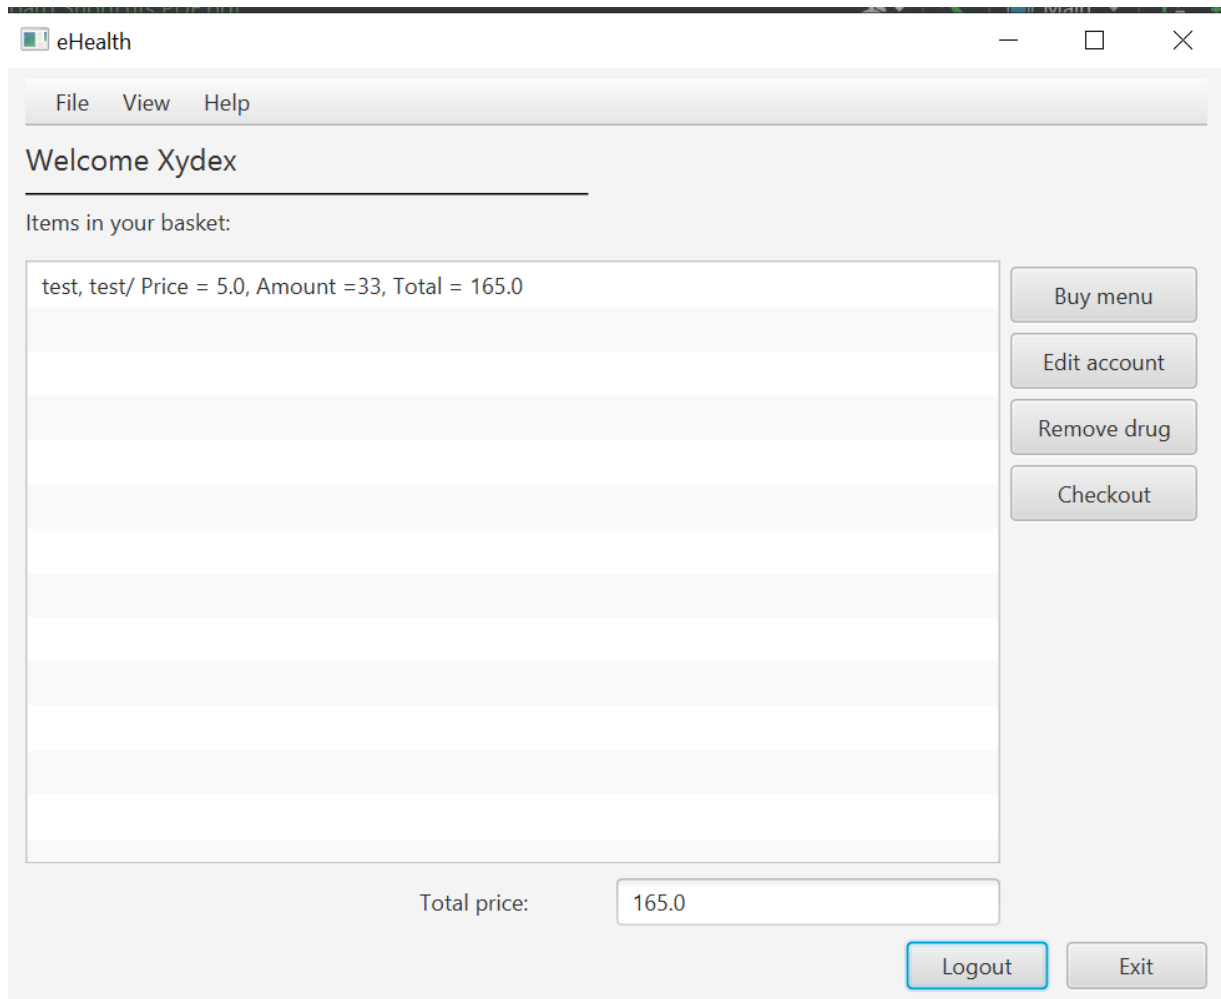

The screenshot shows a window titled "eHealth" with standard window controls (minimize, maximize, close). The main area is titled "Enter the information of the drug:". It contains several input fields: "Name(English):", "Name(Bosnian):", and "Name(Latin)", each followed by a text box. Below these is a "Content:" label next to a large text area. To the right of this text area are two buttons: "Upload an im..." and "Clear". Below the content area is a "Drug effect:" label next to another large text area. Further down is an "Expiration date:" label next to a date picker (text box with a calendar icon). Below that is a "Price:" label next to a text box. At the bottom left is an "Administration t..." label next to a dropdown menu. At the bottom right are two buttons: "Add" (highlighted in blue) and "Exit".

After inserting the data about the new drug, all you need to do is click on the option “Add”, to add it to you inventar.

Using the user account

Upon logging in to you user account, you will be greeted by the following window:

Located on the right side of you window, is you basket. The basket contains all the items you want to buy. You can always remove items from you basket, by clicking on them and then selecting the option to "Remove drug". If you wish to add more items to you basket you need to open the buy menu by clicking on the option "Buy menu".

The buy menu contains all the items that are being sold by the apothecaries. You can scroll through the list, or you can search for more precision.

After finiding the item you like, you need to enter the amount you wish to buy and then click the option “Add to basket”

The screenshot shows a web application interface for purchasing items. At the top, there is a search bar and a "Search" button. Below the search bar, a list of items is displayed, each with its name and price. The item "Lypshos(Lype), 25.0€" is selected and highlighted in blue. To the right of the list, there is a detailed view of the selected item. This view includes fields for the item's name in English, Bosnian, and Latin, a "Content" field, a "Drug effect" field, an "Expiration date" field, a "Price" field, an "Amount" field, and an "Administration type" field. There are also buttons for "Add to basket", "Clear", and "Exit".

Item Name	Price
Paracetamol(Paracetamol), 10.0€	10.0€
Cafetin(Cafetin), 15.0€	15.0€
Lypshos(Lype), 25.0€	25.0€
test(test), 5.0€	5.0€
xxxxxx(tttttttt), 7.0€	7.0€

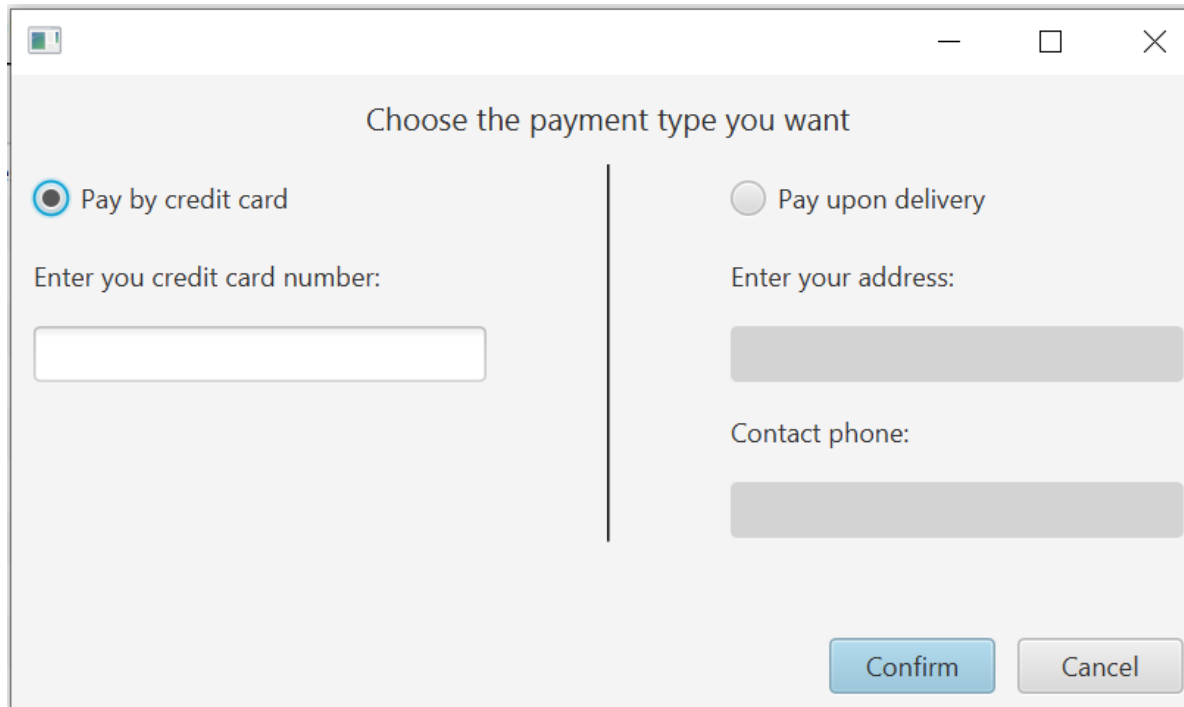

Item Details:

- Name(English): Lypshos
- Name(Bosnian): Lipshos
- Name(Latin): Lype
- Content: 10 mg - L, 40 mg - R, 43 mg - P
- Drug effect: You feel very hapy
- Expiration date: 2024-09-27
- Price: 25.0
- Amount: Enter amount here...
- Administration type: Rectal

Buttons: Add to basket, Clear, Exit

If you wish to edit your account information, you need to select the option “Edit account”.

If you wish to finalize the purchase of your basket items, you need to click on the option "Checkout". It will open a menu, where you can select the payment type you wish to proceed with. Both available payment types require some information. After entering that information, you can select "Confirm" to finish your purchase.

The image shows a screenshot of a web application's checkout dialog. The dialog is titled "Choose the payment type you want" and is divided into two columns by a vertical line. The left column has a radio button selected for "Pay by credit card", followed by the label "Enter you credit card number:" and a text input field. The right column has a radio button for "Pay upon delivery", followed by the label "Enter your address:" and a text input field, and then the label "Contact phone:" and another text input field. At the bottom right, there are two buttons: "Confirm" (highlighted in blue) and "Cancel" (disabled, in light gray).
